

To move the blue agent (you), use the following keys:

To interact with an object (collect, place), use

Here are some steps on how to cook and serve a soup:

- Collect and place **three** ingredients into a pot.
- Once the timer completes (**20 timesteps**), collect a plate and pick up a completed “soup.”
- Serve the collected soup to the silver/gray counter location known as the serving station.

**Note both agents move simultaneously, once per timestep. At each timestep, the game will wait for your action, and both agents (you and the AI) will move simultaneously.**
